

## Notes Summary

This table provides an overview of the evidence of team contributions, use of version control tools, quality of documentation, test coverage, and use of analysis tools across the project. Each row lists specific criteria alongside evidence (primarily from GitHub) and additional comments where applicable. The total evidence score, summing each criterion in column 2, is provided at the end.

For all evidence, please refer to: [https://github.com/vbuddar/movie\\_recommender/blob/feature/project2\\_updates/README.md](https://github.com/vbuddar/movie_recommender/blob/feature/project2_updates/README.md)

| Notes  | Evidence (Score) | Comments |
|--|------------------|----------|
| <b>Total Evidence Score</b>                                    | <b>68</b>        |          |
| Workload is spread over the whole team                         | 3                |          |
| Number of commits  | 3                |          |
| Number of commits by different people                          | 3                |          |
| Issue reports: there are many                                  | 3                |          |
| Issues are being closed  | 3                |          |
| Docs: format, point descriptions, tutorials, motivation, video | 3                |          |
| Version control tools  | 3                |          |
| Test cases exist: Dozens of tests, 30% code coverage           | 3                |          |
| Issues discussed before closure                                | 3                |          |
| Chat channel exists  | 3                |          |
| Test cases address failing cases                               | 3                |          |
| Team-wide tool usage   | 3                |          |
| Team working across multiple codebase areas                    | 3                |          |
| Short release cycles   | 2                |          |
| Important files: .gitignore, INSTALL.md, LICENSE.md, etc.      | 3                |          |
| Video  | 3                |          |
| DOI badge  | 3                |          |
| Style checker badges   | 3                |          |

| Notes                                     | Evidence<br>(Score) | Comments |
|---|---------------------|----------|
| Code formatter badges                     | 3                   |          |
| Syntax checker badges                     | 3                   |          |
| Code coverage tool<br>badges              | 3                   |          |
| Other automated anal-<br>ysis tool badges | 3                   |          |
